

UZ-2010 UNIVERSAL BALLISTIC BREECH

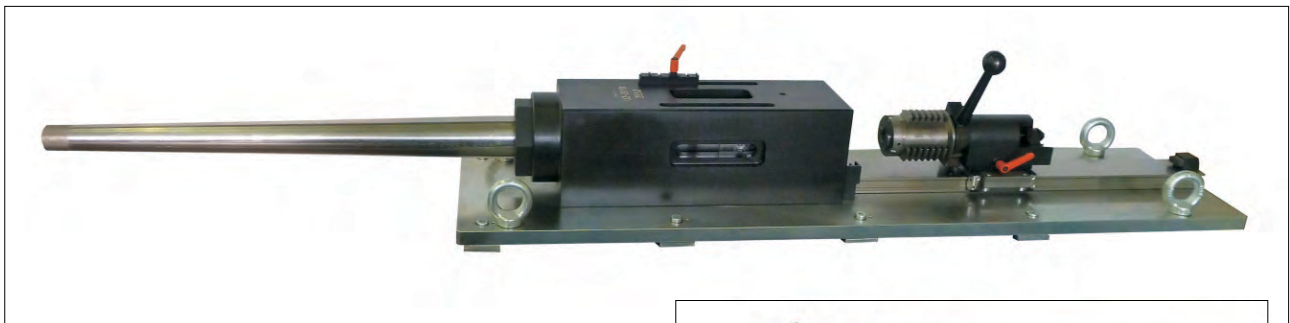

TECHNICAL PARAMETERS

Range of calibers	up to 25x137
Length	1200 mm
Width	280 mm
Height	165 mm
Mass	125 kg
Operating temperature rate	-25 °C to +40°C

Description:

UZ-2010 test gun works as a single-action manually operated weapon provided with a screw breech block. A percussion mechanism cocking takes place in the course of the breech unlocking. After a gunshot (manual or remote operation) a withdrawal and ejection of the cartridge case is done manually.
